

Shared Decision Making Online – Live Zoom Interactive Study Day

aqua

Shape Change Inspire Quality Transform Care

Home - Aqua

The delivery of the Programme is structured around one day of direct learning to demonstrate how using the skills has improved practice.

The Programme will support attendees to:

- Understand the comprehensive model of personalised care, with specific focus on shared decision making
- Outline the supporting evidence for shared decision making
- Reflect on the challenges and barriers to shared decision making
- Recognise the benefits and value of shared decision making
- Understand tools and techniques which support shared decision making
- Understand how to measure SDM understand the need for change in current practice
- Apply their learning through a case study reflection to achieve PCI certificate and CPD points

Dates available:
27th of September 2023
2nd of November 2023

Who can attend?

Anyone who is employed within the Nottingham and Nottinghamshire Integrated Care System

How do I register?

E-mail the Personalised Care team via nnicb-nn.whatmatterstoyou@nhs.net with your job title and the date you want to book.

Advancing Quality Alliance (Aqua) supports health and care organisations and systems to identify, refine and embed sustainable strategies for high-quality care and regulatory excellence. Their members and customers benefit from access to expert advisors as well as a comprehensive Programme of courses and events to help build internal capability and develop cutting-edge approaches to care quality.
