

Register of Interests

Published: 1 October 2026

This register records the declared interests of members and attendees of the ICB Board and its committees. These individuals are classed as decision-makers because their roles may give them a material influence over how taxpayers' money is spent. The register includes each individual's current position, relevant Board and committee memberships, the nature of any declared interest, and the period for which the interest applies.

(D) denotes an individual who is an appointed deputy for the relevant Executive Member on that committee.

A separate register is maintained for all other ICB employees and individuals working with the ICB and is available on request.
