

Urgent help for toothache or other problems with your teeth or gums

You can book an appointment if you have an urgent problem with your teeth or gums.

You can book an urgent dentist appointment on the website: www.111.nhs.uk or by phoning 111.

This may not be with your usual dentist.

You can look at the NHS website to find out which dentists have urgent appointments near where you live: <https://www.nhs.uk/service-search/find-a-dentist>
