Dear

NHS Nottingham and Nottinghamshire Integrated Care Board (Notts ICB): NHS Continuing Healthcare Activity Partnership arrangement between NHS Nottingham and Nottinghamshire ICB and UB Healthcare.

NHS Continuing Healthcare (CHC) means a package of ongoing care that is arranged and funded solely by the National Health Service (NHS) where the individual has been assessed and found to have a 'primary health need' as set out in this National Framework.

Such care is provided to an individual aged 18 or over, to meet health and associated social care needs that have arisen as a result of disability, accident or illness.

As part of our commitment to ensure that patients receive timely CHC reviews and assessments Notts ICB are working with UB Healthcare to provide additional clinical capacity across Nottingham to ensure all patients are receiving the care they have been clinically assessed to need

UB Healthcare are experts in All Age Continuing Care (AACC), their services are designed to achieve all quality standards and procedures stipulated within the **National framework for NHS Continuing healthcare and NHS-funded nursing care** and they will be supporting Notts ICB in carrying out this work, ensuring people are receiving the care they need.

UB Healthcare will be in touch with you in the coming weeks to review your existing package. The ICB is committed to looking after your personal data and further information on how we use and share information is available on our website or if you have any further questions, please contact the ICB nnicb-nn.chcteam@nhs.net or telephone 0115 8831825.

Yours sincerely,
